

FLUOR21 ITN Bulletin No.9 December 2017

Dear *FLUOR21 ITN* members,

I hope that you are all well and looking forward to the Christmas break!

This is our ninth Bulletin and, although some ESR/ERs have finished their training period with Fluor21, we will continue updating the website (<http://www.fluor21.eu/>) with Network information and news until the formal end of the grant on February 28th 2018 so please send any news highlights for inclusion on the FLUOR21 webpage to Na Li (na.li@ucd.ie).

Updates of Network members

ESR Mickael Muselli finished his contract with FLOUR21 in October and has moved to Strasbourg in France working as a post-doc at CNRS in the field of Organometallic Chemistry. Congratulations to Mickael on his new position. We appreciate Mickael's contributions to the FLOUR21 and wish him every success in the future!

Currently, most ESRs are busy finishing their last phase of lab work and starting to write their theses. We wish them good luck on completing their PhDs!

FLUOR21 Reporting

Both the 2nd Periodic report and final report of FLUOR21 are currently being developed, which are due by the end of April 2018. We would like to thank all our partners for their cooperation in submitting all information that is required for these reports. We will circulate the reports to all the consortium partners for reviewing once the reports has been finalized and welcome all suggestions and comments.

Network administration

Na Li (na.li@ucd.ie), our research administrator, is based in University College Dublin. If you have any queries regarding the project, please feel free to contact her.

Merry Christmas and Happy New Year!

Best wishes,

Professor Graham Sandford
(Fluor21 ITN Coordinator)
